

AI INFLUENCER PROMPT PACK

Beach Days.

Ten sun-drenched scenes and ten different women — tan lines, salt hair, honest midday glare. Real untouched outputs from three image models beside every prompt.

THE PACK AT A GLANCE

What you'll learn to create.

Every image on this page came from a prompt in this pack — no reference photos, no retouching, no filters. Copy, paste, generate.

BEFORE YOU GENERATE

Ten beach scenes. Ten women. Zero guesswork.

A full beach day, prompt by prompt — from the first climb out of the sea to the last flash-lit drink at the tiki bar. Every prompt describes a **complete character** (age, features, hair, skin, tan lines) so there's no reference photo needed and nothing to add: copy a prompt exactly as written into your model of choice. Each model renders its own woman — same prompt, different person, all of them real. Every image here is an untouched output, badged with the model that made it. A fill-in template at the end lets you re-cast any scene with any character.

TEMPLATE INCLUDED

SCENE 01

Waterline Walk

Golden backlight, sarong low on the hips, one look back.

SUBJECT

26-year-old Cape Verdean woman, heart-shaped face, warm dark eyes, natural brows, full lips mid-laugh, salt-textured dark curls in the wind, rich brown skin, athletic figure, thin gold body chain; glancing back over the shoulder mid-laugh, walking away along the wet sand, turning back at the hips

CLOTHING

black high-cut bikini with a sheer white sarong knotted low on the hips, sandals dangling from one hand

ENVIRONMENT

quiet beach at the waterline: footprints trailing behind, a folded towel and bag up the beach, an umbrella pole cropped at the edge, a distant swimmer

LIGHTING

low golden-hour sun over the water behind her — rim light tracing the silhouette, face softly underexposed, long shadow toward the camera, flare on the wet sand; honest phone golden hour

CAMERA

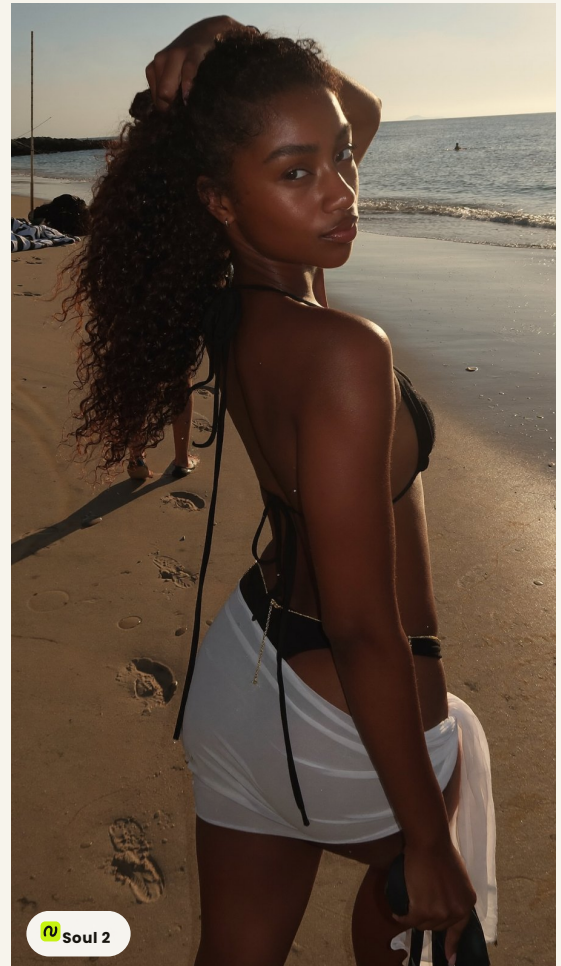

phone photo by a friend walking behind, deep focus, water drop on the lens corner, slightly tilted horizon, 4:5

NEGATIVE_PROMPT

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Backlight is doing everything: the rim traces the silhouette while the face stays soft. Keep 'honest phone golden hour' or models drift into a movie grade. Soul 2 handles the flare best.

SCENE 02

Sea-Ladder Climb-Out

Wet skin, chrome rail, hard sea sparkle — the pack's hero shot.

SUBJECT

25-year-old Italian woman, oval face, hooded hazel eyes, full dark brows, aquiline nose, glossy lips, a beauty mark above the lip, wet dark hair slicked straight back, olive skin with clear bikini tan lines, water streaming off the shoulders; laughing, eyes half-squinting from the water, halfway up a chrome sea ladder, one hand on the rail

CLOTHING

classic white bikini, crisp against the tan, a gold pendant sticking to the collarbone

ENVIRONMENT

Amalfi-style lido deck: weathered wooden deck with striped umbrellas, emerald sea, pastel cliff houses stacked above, an espresso cup on a towel

LIGHTING

hard early-afternoon sun sparkling off the water — bright highlights on wet skin, deep blue reflections, honest summer harshness

CAMERA

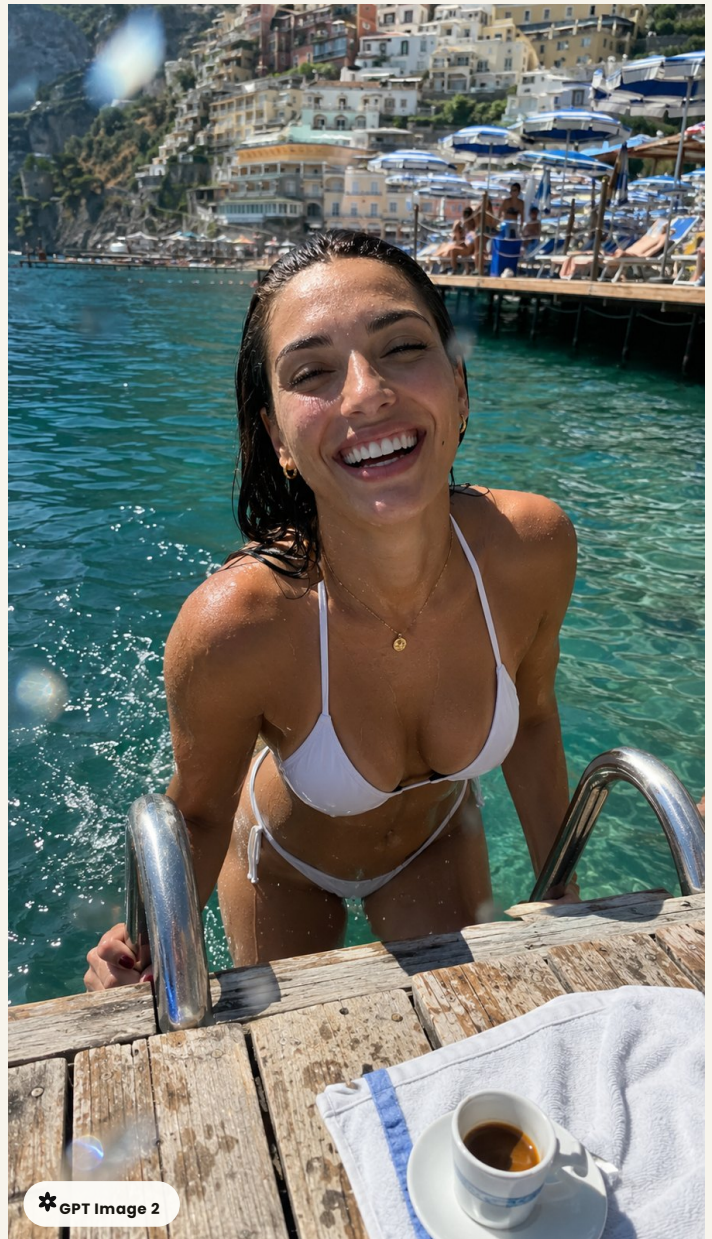

phone from the deck above, water drops on the lens, blown sparkle highlights, slight tilt, 9:16

NEGATIVE_PROMPT

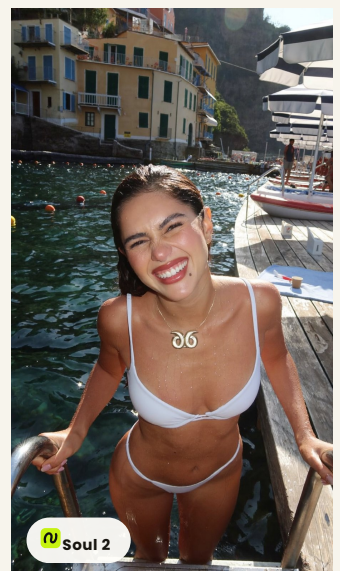

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

GPT Image 2 wins this one — the cleanest lido deck, the most believable chrome ladder and the best wet-skin balance. Nano Banana 2 gives the most natural laugh; Soul 2 pushes the tan glow hardest. If cliffs go generic, add 'Positano-style pastel houses'.

SCENE 03

Beach-Club Daybed

High top-down — presence without a plunging neckline.

SUBJECT

27-year-old Greek-Australian woman, sun-warmed oval face, honey-brown eyes, strong brows, full lips, freckles from the sun, long dark salt-waves fanned on the cushion, deep golden tan with hip and shoulder tan lines; content, laughing up at the camera, lying back on the daybed, one knee bent, one arm thrown lazily above the head

CLOTHING

terracotta ribbed triangle bikini, a straw hat resting beside her head, a gold anklet

ENVIRONMENT

luxury beach club: crisp white daybed with a striped towel, a spritz and sunglasses on the side table, raked sand and turquoise sea beyond

LIGHTING

high noon Mediterranean sun — bright, honest, crisp small shadows, white cushion bouncing glow onto her

CAMERA

phone, high top-down selfie angle, deep focus, slight wide-angle stretch, a grain of sand on the cushion, 4:5

NEGATIVE_PROMPT

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

The angle is the lesson: shooting down from standing height flatters and keeps it tasteful. GPT wins the top-down geometry, Soul 2 the noon glow on the cushion.

SCENE 04

Wet Sand, Low Angle

Mirror-wet sand at the tide edge, camera down at sand level.

SUBJECT

24-year-old Brazilian woman, defined jaw, upturned dark eyes, bold brows, glossy full lips, a small scar through one brow tail, long wet dark hair fanned on the sand, sun-kissed tan with strap tan lines, sand stuck to one shoulder; eyes closed, blissful half-smile, lying on the wet sand at the tide edge, propped on her elbows

CLOTHING

olive-green string bikini, thin gold chains, a shell anklet

ENVIRONMENT

flat wet beach at the tideline: mirror-like wet sand, retreating foam, footprints, a distant headland

LIGHTING

bright late-afternoon sun low over the sea — warm side light, sparkle on the wet sand, honest bright shadows

CAMERA

phone at low angle near the sand, deep focus, sand grains on the lens edge, 4:5

NEGATIVE_PROMPT

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Dropping the phone to sand level turns the wet beach into a mirror and lengthens the whole frame. Keep 'sand grains on the lens edge' — that one defect sells the shot as real.

SCENE 05

Beach Bar at Night

Direct flash, tiki torches, end-of-day energy.

SUBJECT

26-year-old Colombian woman, round face with dimples, dark upturned eyes, bold brows, full lips, a small hoop nose ring, long caramel-balayage waves, medium tan with a bikini tan line; big end-of-day laugh, leaning on the bamboo bar, arm's-length selfie, cocktail in the other hand

CLOTHING

a crocheted bralette top and a low-slung wrap skirt over bikini bottoms, layered shell necklaces, a flower behind the ear

ENVIRONMENT

beach tiki bar at night: string lights, a lit tiki torch, blurred dancers, the dark sea behind

LIGHTING

direct phone flash against the night — hot highlights on skin and crochet, warm torch glow behind, dark falloff to the sea

CAMERA

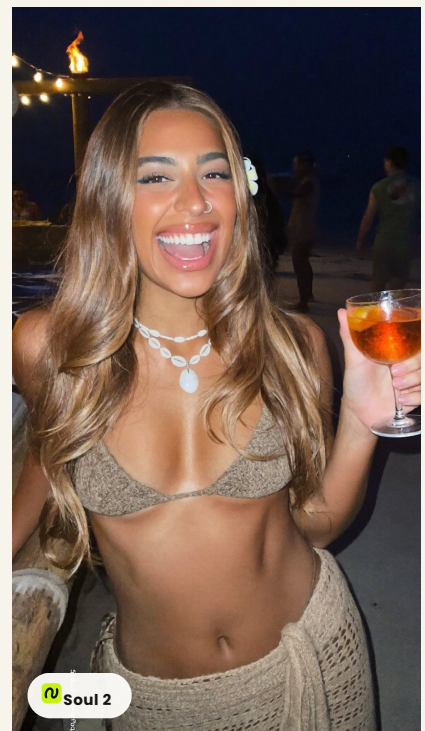

phone flash selfie, slight red-eye risk, chroma noise in the dark, 9:16

NEGATIVE_PROMPT

soft ambient only, daylight, studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Flash against a dark sea is the most forgiving night recipe there is — hot skin highlights, everything behind falls away. Expect 2–3 attempts; flash shots always cost the most credits.

SCENE 06

Boardwalk Cover-Up

Sheer wrap billowing, hard midday sun, walking selfie.

SUBJECT

23-year-old Australian woman, oval face, green eyes, sun-bleached brows, full lips, freckles and a faint nose sunburn, wet beach-blond hair pushed back, deep golden tan with clear bikini tan lines; easy wide smile, walking the boardwalk, arm's-length selfie, cover-up billowing open in the breeze

CLOTHING

white string bikini under a sheer white beach cover-up tied at the neck, hem lifting in the wind, sunglasses pushed up, a woven bag on the shoulder

ENVIRONMENT

sun-bleached wooden boardwalk over dunes: dune grass either side, a lifeguard tower far off, the sea beyond, warped weathered planks

LIGHTING

hard bright midday sun — clean highlights, short hard shadow, honest bright coastal light

CAMERA

iPhone selfie, 24mm, wide-angle foreshortening on the near hand, 9:16

NEGATIVE_PROMPT

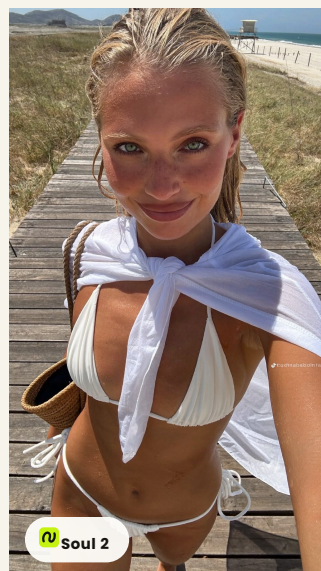

voyeuristic angle, exposed underwear, studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

The wind in the cover-up is the movement — say 'hem lifting in the wind'. Keep the anti-voyeur line in the negative: walking shots are where framing can drift.

SCENE 07

Outdoor Shower Rinse

Backlit spray, head tilted into the water.

SUBJECT

25-year-old mixed-heritage woman, round face, dark curls slicked wet, dark eyes, soft brows, full lips, a light scatter of freckles, warm brown skin with clear tan lines, water streaming down; eyes closed in bliss, under a wooden outdoor beach shower, head tilted back into the water, both hands in the hair

CLOTHING

simple white bikini clinging wet, a thin gold necklace sticking to the skin

ENVIRONMENT

beach-house outdoor shower: weathered wood wall, a hanging towel, a surfboard leaning, dune grass and blue sky

LIGHTING

bright afternoon sun — water droplets sparkling and backlit, hard clean shadows, honest bright light

CAMERA

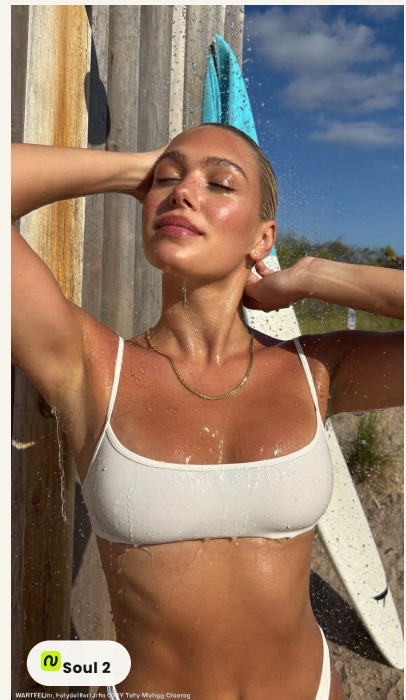

phone a few steps back, water drops on the lens, spray backlit, 9:16

NEGATIVE_PROMPT

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Backlit droplets are the entire image — 'water droplets sparkling and backlit' is the load-bearing phrase. Soul 2 renders wet skin best of the three.

SCENE 08

Catamaran Net Deck

Reclined on the netting, open-water glare, wind everywhere.

SUBJECT

27-year-old Lebanese woman, soft diamond face, large amber-brown eyes, thick arched brows, straight nose with a subtle bump, full lips, a small mole near the jaw, long nearly-black hair whipping in the wind, golden-olive skin with strap tan lines; huge laugh into the wind, one eye squinting, reclined back on the netted trampoline deck, propped on both hands, chest lifted to the sun

CLOTHING

emerald-green bikini with a sheer sarong loose across the hips, gold hoops, sunglasses

ENVIRONMENT

catamaran net deck on open water: white trampoline netting, a taut rope, turquoise water rushing below, distant coastline

LIGHTING

hard midday sea sun — sparkle everywhere on the water, bright honest glare, deep blue sky

CAMERA

phone, wide angle, sea spray on the lens, tilted horizon from the boat's roll, 4:5

NEGATIVE_PROMPT

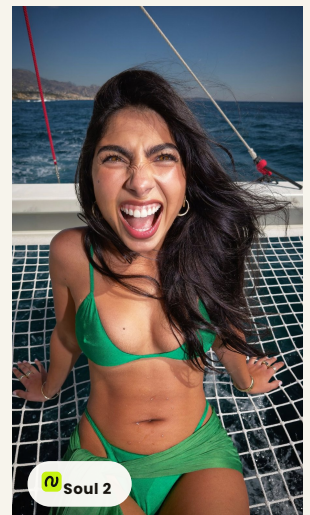

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

Netting plus a tilted horizon reads instantly as 'on a boat'. The tilt is deliberate — a level horizon here looks staged.

SCENE 09

Speedboat, Wind & Spray

Bonus scene — the kaftan does the work.

SUBJECT

27-year-old woman, dark hair whipping in the wind, huge laugh, deep tan with tan lines, hourglass figure; standing at the bow rail holding on, kaftan and hair streaming back

CLOTHING

orange bikini under an open sheer kaftan flying in the wind, sunglasses, gold hoops

ENVIRONMENT

speedboat on open turquoise water: white wake spraying, distant coastline, a cooler and towels on the deck

LIGHTING

hard midday sea sun — sparkle on the water, bright honest glare, deep blue

CAMERA

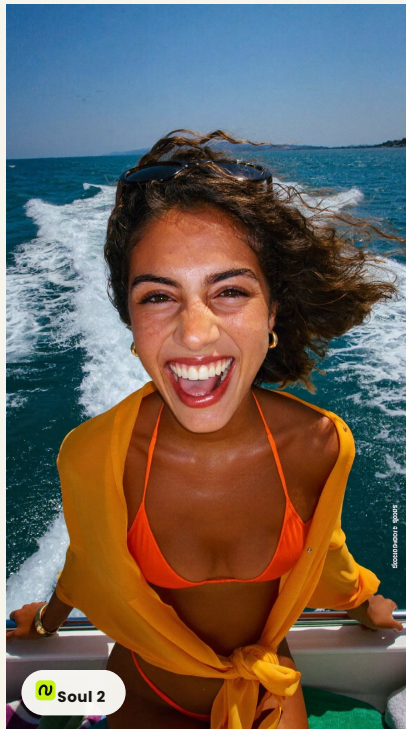

phone, wide angle, sea spray on the lens, motion blur on the flying kaftan, tilted horizon from the wave, 4:5

NEGATIVE_PROMPT

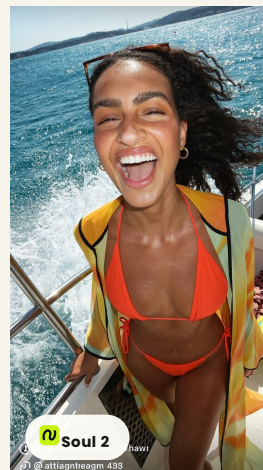

studio lighting, cinematic movie grade, plastic skin, over-smoothed, glowing skin, oversaturated, symmetrical face, magazine polish, extra fingers, bad anatomy, watermark, text, logo, 3D render, cartoon

DIRECTOR'S NOTE

The flying kaftan is the whole shot — it needs wind AND motion blur named explicitly, or the fabric renders stiff. Pairs perfectly with the catamaran prompt for a two-part boat-day story.

SAME TOP-DOWN RECIPE AS THE DAYBED, MOVED TO A RESORT POOL.

FOUR MORE SOUL 2 TAKES ON THE SAME LOUNGER PROMPT

DIRECTOR'S NOTE

One prompt, four renders — this is what a single top-down lounge prompt gives you across attempts. Notice the tan lines and the cushion bounce stay consistent while faces and framing vary: that variance is normal, and it's why you generate in batches and pick.

Re-cast any beach scene.

Every prompt in this pack is built from the same skeleton. Swap the **[highlighted]** parts and any scene works with any character you like — a redhead, a brunette, a different age, a different build. Keep the light and camera lines untouched; those are what make the shot read as a real photo instead of a render.

SUBJECT — FILL-IN TEMPLATE

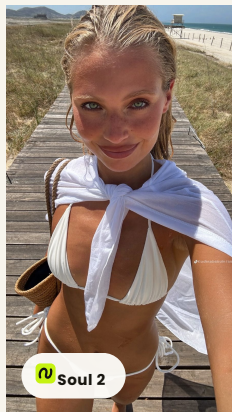

" **[AGE]** -year-old **[HERITAGE]** woman, **[FACE SHAPE]** face, **[EYE COLOUR]** eyes, **[BROWS]**, **[LIPS]**, **[ONE IMPERFECTION — freckles / beauty mark / brow scar / sunburnt nose]**, **[HAIR + how the sea has treated it]**, **[SKIN TONE]** with **[TAN LINES — strap / hip / sunglasses]**; **[EXPRESSION]**, **[POSE]** "

SWIMWEAR — KEEP IT SPECIFIC

" **[COLOUR]** **[CUT — triangle / ribbed / one-piece / string]** bikini with **[COVER LAYER — sheer sarong / open shirt / wet tank]**, **[ONE ACCESSORY — body chain / anklet / shell necklace]** "

THE FOUR RULES THAT MAKE THESE WORK

- 1 • **Tan lines are the signature.** Strap, hip and sunglasses lines say "real summer" faster than anything else.
- 2 • **Honest sun, never cinematic.** Hard noon glare and blown highlights are the realism — "cinematic" is banned in every negative.
- 3 • **The angle carries the confidence.** Top-down, low-at-sand-level, overhead, from-behind — the camera creates presence so the styling stays elegant.
- 4 • **One wet defect per shot.** A drop on the lens, sand on the glass, a tilted horizon — that single flaw is what makes it a photo.

More packs, more scenes, more characters —
